

POLICY STATEMENT  
IN THE FIELD OF QUALITY, ENVIRONMENT, OCCUPATIONAL HEALTH AND  
SAFETY

KREMSMUELLER Romania company is perceived as an unitary, functional organization, able to create and deliver high quality products and services in the field of design, manufacture and installation of tanks, technological equipment, steel structures, checking and repair of pressure equipment, execution and maintenance of electrical installations and automation.

Kremsmueller Romania Top Management is committed:

- To allocate the necessary resources for continual improvement of the effectiveness of the integrated management system: quality-environment-health and occupational safety implemented in the organization, in accordance with standard requirements: ISO 9001:2015, ISO 14001:2015 and OHSAS 18001:2007.
- To improve the quality of products and services in order to increase customer satisfaction.
- To develop the professional skills of staff by providing training and certification/authorization programs for workers.
- To fulfill its obligations in full compliance with the applicable legal and regulatory requirements relating to the environment and occupational health and safety.
- To continuously improve environmental performance and occupational health and safety, in particular by adopting measures for preventing pollution, injuries and occupational diseases.

The quality, environmental and occupational health and safety policy is evaluated periodically for suitability in terms of scope and context of the organization, also serving as a framework when setting new targets.

This document is distributed to all levels and communicated to each employee to ensure knowledge and understanding of the commitment to quality-environment-safety and health at work and is available to the interested parties on our website.
